

IDEAS

FILTERS

Bar Chart / Side-by-side Chart / Butterfly

- ↳ Daily extreme max temp in each state ①
- ↳ lowest temperature in each state ②
- ↳ rainfall each state ③

Bubble Plot + Pie Chart / Donut Chart

- ↳ Rainfall and temperature correlation for each state ④

Symbol Map

- ↳ Extreme weather for entire Australia ⑤ (hail, tornado, waterspout, dust devil).

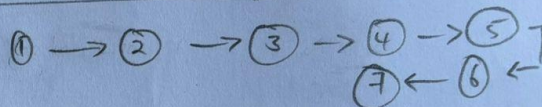

Chloropleth Map

- ↳ Rainfall / precipitation ⑥

Line Chart

- ↳ Temperature increase over years in Australia ⑦

CATEGORIZE

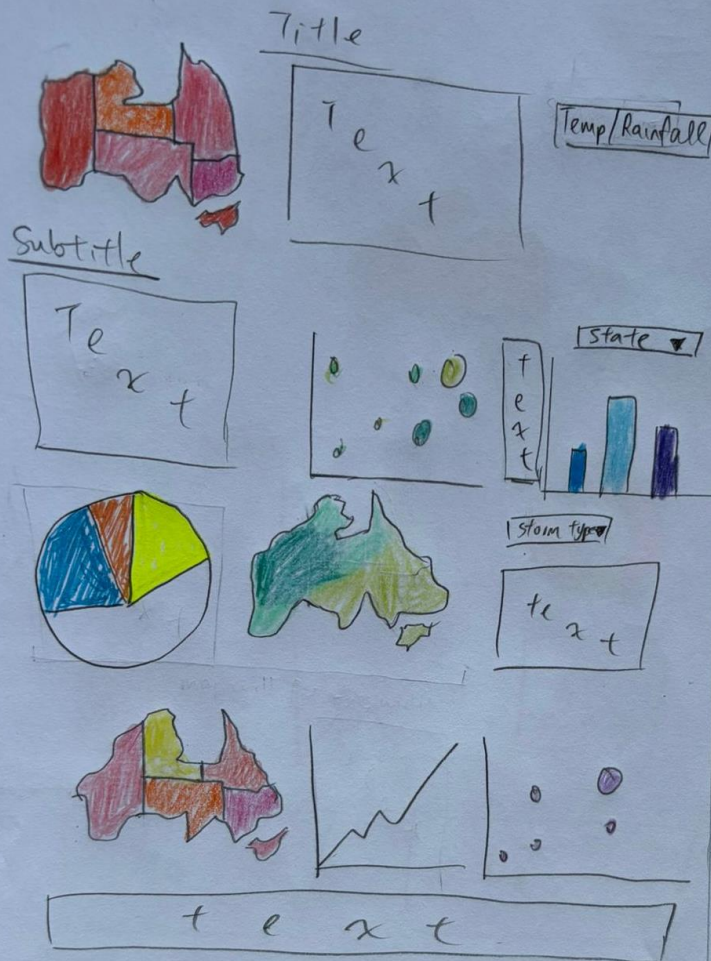

COMBINE & REFINE

- ↳ Might be able to combine ⑤ into one instead of multiple maps for different 'storm' types
- ↳ Combine ① and ③ might be a good idea to see the difference
- ↳ Combining the states to get max temp or lowest temp might be better.

QUESTIONS

- ↳ Is it beneficial to have this many visualisations?
- ↳ Should I remove ① and ②?
- ↳ Should I use Chloropleth or just stick with symbol?

LAYOUT

Author: Tang Jia Shen
Date: 28/09/2024
Sheet: 2

OPERATION

- ↳ be able to pick temperature or rainfall
- ↳ be able to pick states to see specific states/territory
- ↳ be able to filter by storm type.
- ↳ be able to highlight states on symbol maps.

FOCUS

- ↳ Main focus will be the maps used to visualise the weather in each state.
- ↳ ~~Maps~~ Multiple maps show the focus and the line and bubble help support evidence of resulting map.

DISCUSSION

- * The main focus is obvious
- * Very informative and good flow.
- * bad segmented division of sections
- * need more aesthetic style.

$t \quad e \quad x \quad t$

$t \quad e \quad x \quad t$

FOCUS

- ↳ No main focus
- ↳ More text to explain maps and visualisations. to provide better story telling.

Author: Tang Jia Shen
Date: 24/9/2024
Slide: 3

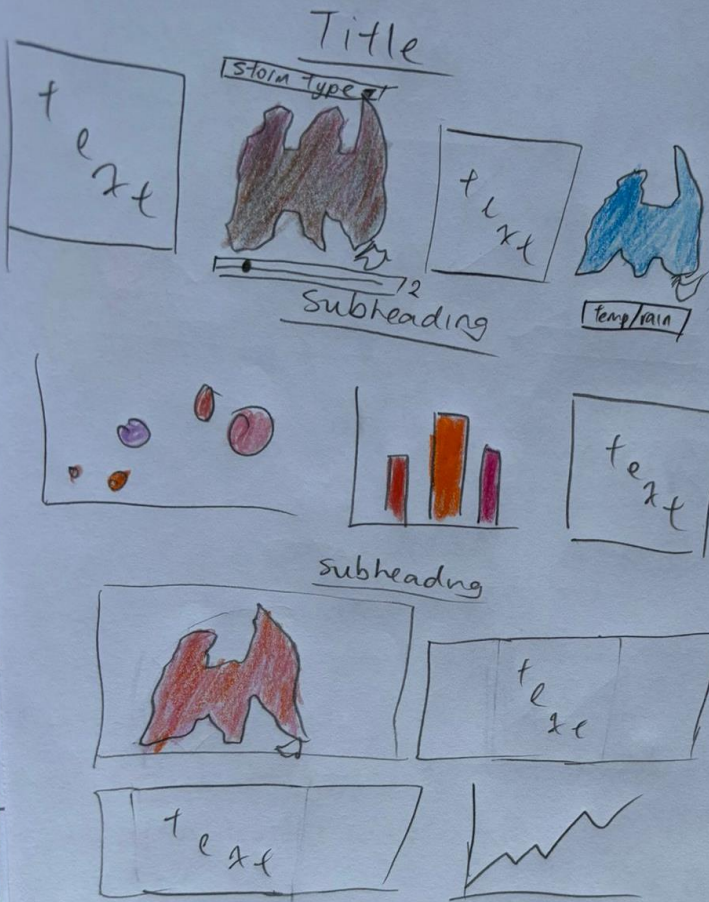

OPERATION

- ↳ be able to filter by states interactively
- ↳ be able to filter states by drop down menu too
- ↳ slider for storm magnitude.
- ↳ have tooltips for better comprehension.

DISCUSSION

- * Very simple and straightforward
- * Able to storytell more
- * Too textbook-like layout
- * May be too wordy.

CHY007

FOCUS

- ↳ Main focus is the two maps at the top regarding storm types and rain + temp.
- ↳ Rest of the visualisation help support the story of the weather in Australia.

Author: Tang Jia Shen
Date: 24/9/2021
Sheet: 5

OPERATIONS

- ↳ filter by storm type
- ↳ switch between temp or rainfall
- ↳ Slider for magnitude of storm
- ↳ filter by states
- ↳ tooltips and annotations to improve clarity
- ↳ able to highlight states on maps.
